Product For Tractor Industry

Product For Earth Moving Equipment

Mechatronics

Product For Railway Industry

M/s G.M. HI-TECH is an I.S.O. 9001-2015 certified engineering company established in the year 1999.

The company is engaged in the business of fabrication of stainless steel reservoirs, frames for railways and manufacturing of precision engineering components such as Geared Type Oil Lubrication Pumps, Brake components, Transmission components, Suspension Components, Hydraulic components, Precision Aluminum, Aluminum High Pressure die casting component, Magnesium Alloy Components & Brass Components and various types of machined components for Automotive, railways, tractors and generator industries.

Excellent quality control, sound infrastructure, and timely delivery make us a wise choice for discerning companies looking to outsource precision components manufacturer from India. We at G.M. Hi-Tech, specialize in manufacturing wide range of 100% customized and highly precise components, sub-assemblies and assemblies from materials ranging from casting, steel, brass, aluminium and seamless steel pipes.

G.M.HITECH has state-of-the-art manufacturing facilities in Alwar, INDIA duly strengthened by efficient team of talented technocrats, competent personnel and highly accurate measuring and testing facilities in order to strictly maintain customers' specifications. The company excels in the art of making high precision components in mass quantities at very reasonable prices.

100% commitment to quality and delivery.

- Self-Inspection Reports
- Raw-Material Test Certificates
- Striving towards reduction of lead time
- Keeping pace with advancing technologies
- We strive for customer "WOW"!!

## **INFRASTRUCTURE:**

G.M.HITECH has state-of-the-art manufacturing facilities with production facilities, inspection facilities, designing facility etc in Alwar, INDIA duly strengthened by efficient team of talented technocrats, competent personnel and highly accurate measuring and testing facilities in order to strictly maintain customers' specifications and requirements.
